## Lamb Finisher Pellet

### 68 - 9

*This pellet can be used as a single feed ration, it's high grain ration with hay fibre make this pellet very popular with lot feeders, looking for optimum weight gain to finish their stock to a desired weight.*

#### RATION ANALYSIS:

Gilmac pellets are made to the highest standards. The fibre ingredient used is Oaten Hay of Export quality. The nutritional parameters for each of our rations are achieved, through using high IVD and WSC hay combined with Lupins and Barley as our main ingredients. The high fibre content provides for improved rumen development to help prevent against acidosis.

#### Nutritional Analysis:

Crude Protein ( min )	15.5%
Metabolisable Energy ( est )	10.8 MJ/kg

#### Ingredient selection:

Oaten Hay	
Cereal Straw	
Barley	
Lupins	
Lime ( max )	3.0%
Vitamin/Mineral premix	0.1%
